Account name: Helix Technologies
Account number: 03 1556 0179688 000
Please include your surname as a reference.

Taking samples and service address

For tests except Chlamydia: For best results, label **paper envelopes** with the sample number, species, and bird ID to match the form below. Place 2-3 freshly plucked feathers greater than 2 cm in length, from each bird into each envelope. Alternatively, blood spotted on card can be provided. Allow any blood at the tip of the feather's calamus, or on card, to dry before placing in the envelope.

Chlamydia: Cloacal swabs are required. Insert through the vent with a twirling motion.

This form can be sent electronically (samples@helixtechnologies.co.nz) or posted with samples to:

Helix Technologies
1070 Maungakawa Road
R.D.4
Cambridge 3496

Please contact us before sending samples from outside of New Zealand.

Results

Results will be returned electronically to your provided email within 5 business days of payment and sample receipt. We aim for 100% accuracy when analysing your birds. In the event we are unable to complete a test, a refund or credit will be provided for the sample.

For any questions please email samples@helixtechnologies.co.nz or phone 021 970 534.
